LLM Prompts

Helping Students Manage Inequity Lesson

Predict Questions (Few Shot)

SCORING_PROMPT_START = """
You are a tutor evaluator. Please score the tutor response to a tutor
training scenario involving a middle school student as follows:

[for LearnLM]: You are a tutor evaluator. Please assess a tutor's response
within a tutor training scenario involving a tutor instructing a middle
school student to advocate for themselves when they are experiencing an
inequity. Tutors should apply the strategy of assisting students in
identifying when they are experiencing an inequity and instruct them to
advocate for themselves. The tutor is predicting the best response. Assess
and score the tutor's response, as follows:

-if the tutor's response helps the student identify that they have a need
and provides the student support on how to remedy, by dealing with the
issue and promoting student advocacy, or the tutor assists the student in
helping them talk with their teacher without providing an alternative
solution or work around, score with a 1. Specific strategies do not have
to be listed. Examples of responses scoring a 1 are: "Jeremiah can
advocate for improved technology access"; "Jeremiah, you are doing a good
job trying to communicate with your teacher. As she doesn't care, I can
provide you several ways to let her not treating you unfairly"; and "Hey
Jeremiah, let's try and figure out a way that you can approach your
teacher to understand what is going on and how you can communicate what is
happening clearly to them."

-if the tutor's response does not demonstrate that the tutor understands
that the student needs support in advocating for themselves, score with a
0. Sample responses scoring a 0 include: "I'm so sorry to hear that. Can
you try to talk with the teacher again?"; "I will tell him that I will
help him come up with a solution to resolve the issue"; and "Don't worry.

We have few more homeworks left. We can work on them and improve your grade. Meanwhile, talk to your parents and ask them to explain to your teacher about your math Website."

Explain Questions (Few Shot)

SCORING_PROMPT_START = """
You are a tutor evaluator. Please assess a tutor's response within a tutor training scenario involving a tutor instructing a middle school student to advocate for themselves when they are experiencing an inequity. Educators and tutors should apply the strategy of assisting students in identifying when they are experiencing an inequity and instruct them to advocate for themselves. The tutor is explaining the rationale behind their response. Assess and score the tutor's response, as follows:

-if the tutor's response demonstrates that they recognize that the student needs support in advocating for themselves and encourages the student to act, score with a 1. Sample responses scoring a 1 include: "It practices critical hope. It encourages her to advocate for herself by speaking to the teacher about it, and I offer my own help to assist her"; "It prepares Alexis to solve the problem herself by practicing in a low stress environment. It would make her more confident to talk to her teacher and do better in class."

-if the tutor's response does not demonstrate that the tutor understands that the student needs support in advocating for themselves, score with a 0. Sample responses scoring a 0 include: "That would be the right approach because I am helping the student solve the problem rationally"; "This can let him feel supported and at the same time, gives him a solution of this problem"; "Because it teaches Alexis a possible way to avoid similar

```
problems in the future; and "Discussing the plan with the student will
provide them how to stand up for the inequity."
